

Notice Authority Letter

I authorize Business Energy Shop to act for, and on our behalf in connection with our utility suppliers and any other provider we give information on, for the purpose of obtaining current price structures, contract status and quotations.

This includes giving permission to Business Energy Shop to serve notice on my existing contracts for the purpose of avoiding an assumptive renewal. This will enable us to transfer to an alternative supplier of our choice.

I understand that I am not under any obligation to transfer to any supplier recommended by Business Energy Shop.

I further understand that Business Energy Shop will notify me once this action has taken place.
